LOS ANGELES , CA, US, July 9, 2019 /EINPresswire.com/ -- Based out of Guadalajara, Mexico, Progressive Metal Band [Fahrenheit](#) recently dropped its third release, a full-length concept album "[Rain](#)" on all digital platforms including [Spotify](#). The 11-track album, mainly composed by Alex Isaac and Carlos Flores, is followed by a 6-minute mini-movie music video directed by Benny Corral. Rain album cover was nominated for Artwork Category at the 2019 Osmium Awards Mexico.

"Rain" takes you on a musical journey about an average guy, not cut out to be a hero, whose choices led him to a life of chaos in the underworld. "The name and concept "Rain" has different symbolisms," said Isaac, Fahrenheit's founder and band leader. "The rain of bullets that plagued the anti-hero's life, the sadness at his lowest, the storms he endured, and his cleansing and liberation."

Cousins Isaac and Flores both industrial engineers and self-taught musicians carved out a career path in an unlikely genre of music. While Guadalajara is primarily known for the classic mariachi bands, ranchera music and the home to Jalisco Philharmonic, a renowned symphony orchestra, music of all genres are emerging out of Mexico including the sub-genre heavy metal and hard rock. Isaac, a guitarist, was part of the Thrash metal scene in Jalisco around the mid-nineties with the band Draksen.

"I moved to the northern border of Mexico where I founded Fahrenheit with my cousin Carlos, a keyboardist," said Isaac. "It wasn't easy to find quality musicians

interested in the power metal genre, but we were able to recruit musicians from Juarez City and other regions in Mexico."

"When we started the band, the metal scene in Mexico was not happening. American and European bands would play in our city," said Flores. "It was difficult to get people interested in

playing that genre. People felt we should try something easier."

In 2002, Fahrenheit recorded its debut CD titled, "Epic Enter," including songs with English lyrics, inspired by introspective themes, dreams and fiction from different times. Several publications, both electronic and printed, radio, television and word of mouth in different countries helped make "Epic Enter" a widely known release.

"Uncharted Dreams," Fahrenheit's first full-length album was released in 2005, which imprinted a more defined and personal style. It was distributed nationwide through Iguana Records and internationally by Hellion Records (Germany) Melodic Revolution (USA), Rock Stakk and Rock Avenue Records (Japan).

Aiming to achieve a larger impact with that release, Isaac and Flores returned to Guadalajara to regroup with new members and then they resumed concerts and promotion. The new band members are David Martinez, Piero Baroccio, and Christian Del Toro. "We wanted to make a more complex version of power metal genre," said Flores. "We added more flavor that evolved into more progressive metal known as prog metal."

Fahrenheit took part in the compilation of the [ProgPower USA Festival](#), in its then sixth edition with their "Evermore" single.

In 2018, Fahrenheit participated for a third time in the ProgPower USA compilation, now in its XVI edition, with the song, "Wheelchair."
