

New Concierge Service at Life Savers Emergency Rooms offers Patients Private Access to Transportation, Physicians

New Service Gives ER Patients VIP Treatment with Private Ambulance Shuttles, Private ER Entrance, Discreet 24/7 Care

HOUSTON, TEXAS, US, July 1, 2019 /EINPresswire.com/ -- Life Savers Emergency Rooms in Houston are launching a new 24/7 Concierge Service to offer patients needing emergency medical care something that's difficult to find in a hospital ER setting: privacy.

The new Life Savers Concierge Service offers emergency patients transportation in private ambulance shuttles, 24/7 access to Board Certified ER Physicians, and private entrances for checking-in and out of their two stand-alone ER locations in Houston.

Orseer Ikyator (left) and Foyé Ikyator, M.D., Owners of Life Savers Emergency Rooms

“When you’re faced with a medical emergency, there are two things you want; immediate professional care and privacy,” said Dr. Foyé Ikyator, Founder and Medical Director of Life Savers Emergency Rooms. “Calling 911 will get you to the hospital, but there is a lack of privacy that comes with being transported by ambulance, or waiting to be treated in hospital emergency rooms. The concierge service offers patients who don’t want to be seen in a hospital setting, especially those in the public eye, a way to be transported and treated quickly and privately, with discretion and dignity.”

The concierge service offers ER patients who don’t want to be seen in a hospital setting, especially those in the public eye, a way to be transported and treated quickly and privately”

Dr. Foyé Ikyator, Medical Director of Life Savers Emergency Rooms

Dr. Foyé, who spent years working as a Board Certified ER Physician in emergency rooms in Houston and Atlanta, said the Concierge component of Life Savers Emergency Rooms gives patients a confidential alternative to calling 911, as 911 is a state-funded program that automatically

records all emergency services.

The unique new Service is available for all medical emergencies, from traumatic injuries to heat stroke, with private ambulance shuttles stationed throughout the city and suburbs of Houston. Patients call the ER Concierge Physician Line at 832-930-1705, they are triaged over the phone, and a private ambulance is dispatched to their location for immediate pick-up. Upon arrival at

Life Savers ER, Concierge patients also get the added benefit of bypassing the main entrance and sitting in the waiting room, as they enter and exit the building through a private rear entrance.

The new Life Savers ER Concierge service is covered by most insurance, and an affordable cash pay rate is also available for those without insurance.

Life Savers Emergency Rooms have two Houston Locations, 3820 N Shepard Drive Dr. and 17685 Tomball Parkway, that provide private, more attentive critical emergency care to patients, with no wait times. In addition to the new Concierge service, the cutting-edge stand-alone emergency rooms offer 24/7 care from Board Certified Physicians, Nurses, and Radiologists, with an on-site Advanced Laboratory, X-Rays, CT Scans, and Ultrasounds, for immediate results.
