

Trace-A-Matic Awarded "Project Excellence" Challenge Coin by U.S. Army

U.S. Army Cruise Missile Defense Systems presents Trace-a-Matic with an "Awarded For Excellence By The Project Manager" Challenge Coin medallion.

BROOKFIELD, WI, US, July 1, 2019 /EINPresswire.com/ -- Trace-A-Matic was awarded a Challenge Coin medallion from the U.S. Army for "Project Excellence" by Colonel Chuck Worshim on a recent visit. The Colonel is the program manager for Cruise Missile Defense Systems at the U.S. Army's Program Executive Office of Missiles and Space (PEO MS). He, his staff, and some strategic customers were given a full tour of Trace-A-Matic North's state-of-the-art manufacturing facilities, on June 19 in Brookfield, WI.

"It is an absolute honor to have received the prestigious Challenge Coin from Colonel Worshim and the U.S. Army," said Michael Daws, Vice President of Sales at Trace-A-Matic. "We work tirelessly to provide precision CNC machined and manufactured components trusted by U.S. Armed Forces to help protect our great nation and her allies. The Colonel's visit is a testament to the reputation we have established within the military and defense industry, and a true inspiration to our team."

About Trace-A-Matic Corporation

Trace-A-Matic machines precision parts and assemblies for manufacturers in the aerospace, defense, food processing, heavy equipment, medical equipment, mining, oil and gas, pharmaceutical, power generation, transportation, and general industrial markets. The company's state-of-the-art facilities use the latest CNC manufacturing technologies to produce complex and intricate components that meet or exceed the most critical tolerances. They machine parts from castings, weldments, forgings, tubing and bar stock that range in weight from one pound to 15,000 pounds.

Trace-A-Matic was established in 1968 and has evolved into a multi-facility operation with locations in Brookfield, WI, and Houston, TX serving the US and international customers. They employ a highly skilled workforce of 200+ people that operate 120+ precision machining centers in a combined climate controlled environment of 300,000+ square feet.
