The service sector of the global economy is witnessing its boom. Out of all the services being availed by the ever-increasing consumer population, business services, and financial services play a crucial role in the development of the economic infrastructure of nations. Thus, these industries are anticipated to attract investments from the governments for their growth and expansion. In addition, the policies framed by the governments for encouraging capital generation is expected to favor expansion of the industry over the next couple of years. Introduction of laws and regulations for protecting the interest of the consumers has motivated a larger fraction of the society to build strong financial portfolios by investing in mutual funds, bonds, etc.

Banking and insurance industries are expected to witness significant growth over the next couple of years. The introduction of favorable reimbursement policies is expected to catapult the financial services industry on an upward trajectory in the years to come. The budgets allocated for implementing financial inclusion plans by the governments in the developing nations are expected to encourage the growth pace of the industry over the next few years.
