PUNE, MAHARASTRA, INDIA, July 2, 2019 /EINPresswire.com/ -- [Vessel Traffic Management Market](#)

A vessel traffic service (VTS) is a marine traffic monitoring system established by harbor or port authorities, similar to air traffic control for aircraft. Typical VTS systems use radar, closed-circuit television (CCTV), VHF radiotelephony and automatic identification system to keep track of vessel movements and provide navigational safety in a limited geographical area. The vessel traffic management market in the Asia Pacific is projected to grow at the highest CAGR during the forecast period, owing to the increasing sea transport, and government involvement in coastal and port security.

This report focuses on the global Vessel Traffic Management status, future forecast, growth opportunity, key market and key players. The study objectives are to present the Vessel Traffic Management development in United States, Europe and China.
