PUNE, MH, INDIA, July 2, 2019 /EINPresswire.com/ --

## Salami Market - 2019-2024

### Report Summary:

Salamis produced world-wide vary dramatically in quality, and the methods of production vary greatly, too. Sliceable fermented salami is a comminuted meat product consisting of meat and fat, sold raw, or in a non-heat-treated state, to the final consumer. Production of fermented salami is sometimes

described as “controlled spoilage” (ie, souring and drying) of meat. Generally, salami is not a “healthy” meat product from a nutritional point of view given that the level of fat is commonly high.
