

2022 Forecast On Worldwide Plastic Materials and Resins Market Key Players, Trends, Sales, Supply, Demand & Analysis

TheBusinessResearchCompany.com adds Plastic Materials And Resins Market Types (High Density Polyethylene, Polypropylene, Low Density Polyethylene) to its store.

LONDON, GREATER LONDON, UK, July 3, 2019 /EINPresswire.com/ -- The global plastic material and resins market reached a value of nearly \$491 billion in 2018.

The plastic materials and resins market size will gain the most in China"

Abdul Wasay

Growth in the historic period resulted from the increased demand for industrial packaging products, growth of key end-use markets for plastics, and technological developments. Factors that negatively affected growth in the historic period were environmental concerns over

plastics, and changes in regulations.

The [plastic materials and resins market](#) consists of the sales of plastic materials and resins by entities (organizations, sole traders or partnerships) that manufacture plastic materials, resins, and nonvulcanizable thermoplastic elastomers, and mix and blend resins on a custom basis and/or manufacture non customized synthetic resins.

The Global Plastic Materials And Resins Market Is Further Segmented Based On Type And Geography:

By Product Type - The plastic materials and resins market is segmented by product type into- high-density polyethylene, polypropylene, low-density polyethylene, polystyrene, poly-vinyl chloride, polyethylene terephthalate, polyurethane, plastic materials and resins, others

Others segment was the largest segment in the global plastic materials and resins market by type of product in 2018, accounting for 39.4% of the market. Acrylic polymers, polyethers, polyamide, epoxide resins, amino resins, polycarbonates, elastomeric resins, vinyl acetate copolymers are the major plastic materials and resins within the others segment which constitute around 70% of the others segment.

By Geography - The plastic materials and resins market is segmented into- North America, Western Europe, Asia Pacific, Eastern Europe, South America, Middle East and Africa.

Trends In The Plastic Materials And Resins Market

Plastic material and resin manufacturers are using recycled plastic products as raw materials to reduce raw material costs, lower carbon footprint, and reduce dependence on other raw materials such as oil and gas. Recycled plastic has properties nearly identical to those of virgin

plastic (plastic material which is produced without using any recycled plastic products) and contains only a few percent of impurities. Additionally, the recycled plastic has a carbon footprint 85% smaller than new plastic. Recycled plastic costs around 20-25% less than the plastic made from virgin raw materials such as oil and gas.

Potential Opportunities In The Plastic Materials And Resins Market

The top opportunities in the global plastic materials and resins market will arise in the others segment which will gain around \$32 billion of global annual sales by 2022. The plastic materials and resins market size will gain the most in China. Plastic materials and resins market-trend-based strategies include focus on research and development, recycling plastic products, adoption of automation.

Major players in the plastic materials and resins market include LyondellBasell Industries, Total SA, Ineos AG, Formosa Plastics Group and Covestro AG.

Plastic Materials And Resins Global Market Report 2019 is one of a series of new reports from The Business Research Company that provides plastic materials and resins market overviews, analyzes and forecasts plastic materials and resins market size and growth for the global plastic materials and resins market, plastic materials and resins market share, plastic materials and resins market players, plastic materials and resins market size, plastic materials and resins market segments and geographies, plastic materials and resins market trends, plastic materials and resins market drivers and plastic materials and resins market restraints, plastic materials and resins market's leading competitors' revenues, profiles and market shares. The plastic materials and resins market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More

Read Plastic Materials And Resins Global Market Report 2019 from The Business Research Company for information on the following:

Markets Covered: global plastic materials and resins market, high-density polyethylene, polypropylene, low-density polyethylene, polystyrene, poly-vinyl chloride, polyethylene terephthalate, polyurethane, plastic materials and resins, others.

Data Segmentations: plastic materials and resins market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

Plastic Materials and Resins Market Organizations Covered: LyondellBasell Industries, Total SA, Ineos AG, Formosa Plastics Group and Covestro AG.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2014-18) and forecast (2018-22).

Other Information And Analyses: PESTEL analysis, plastic materials and resins market customer information, plastic materials and resins market product/service analysis – product examples, plastic materials and resins market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global plastic materials and resins market in 2019 - countries offering most new opportunities. Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Plastic Materials And Resins Industry: The report explains a number of strategies for companies in the plastic materials and resins market, based on industry trends and company analysis.

Opportunities For Companies In The Plastic Materials And Resins Sector: The report reveals where the global plastic materials and resins industry will put on most \$ sales up to 2022.
