

BKMAG Providing Magnetic Name Badges for Years

NINGBO, ZHEJIANG, CHINA, July 4, 2019 /EINPresswire.com/ -- BKMAG is a manufacturer of magnetic material in China, have been working so hard to provide quality products since 2012. With the experience they have in the industry, they have built a solid reputation that provides excellent products and services. Millions of magnets are being supplied globally every year. They provide quality products of [badge magnets](#), [Super Neo Magnets](#), Mounting Magnets and [Office Magnets](#) across the globe.

BKMAG badge magnets keep your clothes secured from pins- providing no hole to your shirt, jacket or uniform. they are perfect for securely holding your name tag, badge, ID or other credentials - even your corsages, pins, medals and brooches - without damaging your clothing or uniform. it can be easily worn and take off. These magnetic fasteners can also be used on the fridge or file cabinet to hang posters, signs and artwork; to hold pieces and parts together in arts & craft projects, to secure tarps, drapes and other wall coverings and for many other uses.

These strong, lightweight ID badge holders are designed in two pieces: the inside or anchor bar and the outside bar, held together by two small but powerful Neodymium magnets. Neodymium magnets are actually composed of neodymium, iron and boron (they are also referred to as NIB or NdFeB magnets). The powdered mixture is pressed under great pressure into molds. The material is then sintered (heated under a vacuum), cooled, and then ground or sliced into the desired shape. Coatings are then applied if required. Finally, the blank magnets are magnetized by exposing them to a very powerful magnetic field in excess of 30 KOe.
