

# ACTV8SKN® Skin Actuator is the most advanced cosmetic on the market, surpassing current molecular chemistry.

*ACTV8SKN® – Skin Actuator, thanks to the exclusive SIGMOLECS® Technology has shown superior results in a clinical trial.*

LUGANO, TICINO, SWITZERLAND, July 9, 2019 /EINPresswire.com/ -- [ACTV8SKN®](https://www.einpresswire.com/actv8skn) Skin Actuator is the most advanced cosmetic on the market, surpassing current molecular chemistry. [Conrad Swiss](https://www.conradswiss.com), a pharmaceutical company focused on breakthrough, innovative products, announces clinical data supporting the long-lasting efficacy of the most advanced regenerative cosmetic available today: ACTV8SKN®- Skin Actuator.

ACTV8SKN® – Skin Actuator, thanks to the exclusive [SIGMOLECS®](https://www.sigmolects.com) Technology has shown superior results in a clinical trial performed to evaluate its brightening, moisturizing, and viscoelastic restorative capacity.

The most advanced cosmetic on the market, surpassing current molecular chemistry.

**Skin Brightness/Radiance:** An increase of skin radiance after 30 days of product application, from zero brightness to apparent brightness to very bright.

“

We are Conrad, We are devoted to improving people's life.”

*Conrad Swiss*

Values increased from 60 to 62.50 after 30 days of application, for an average increase of 2,45% marking improvement of skin brightness, radiance and clarity.

**Moisturizing Effect:** An increase of skin hydration after 30min, 60min and 180min from the application of the product. An overall real time increase of 14.37% post application per individual; with a mean value increase of

9,27%.

**Elasticity:** an average increase in elasticity of 11.80% per individual after 30 days of application. An average decrease in tiring effect of 6.32% after 30 days of application, which signifies and improvement of skin's response to assault.

SIGMOLECS® Technology was conceived and engineered by Dr Serrentino exclusively for Conrad Swiss.

## About Conrad Swiss

Conrad Swiss is the most innovative pharmaceutical corporation specialized in OTC, medical devices, functional cosmetics and dietary supplements. The innovation can be expressed in the formula, in a new way of administration or a novel application. All the products are respected for

their solid scientific support and they carry the consumer recognition of quality and convenience.

About Dr JO Serrentino

M.Sc; DVM; Ph.D FAARM; DABRM.  
Master's in Biochemistry; Veterinarian;  
Doctorate in clinical ecology/environmental medicine.  
Fellow of the American Academy of Regenerative Medicine; Diplomat of the American Board of Regenerative Medicine.

Extensive expertise in the following areas:

- Protein sequencing and clones for biological new medicine;
- Peptide inclusion for medicine;
- Use of cytokines in medicine and therapy and as pathophysiological markers.
- Biological markers for diagnostics; targeting and research& development;
- Carrier formulations for enhanced absorption of active principles; formulating, assessment and/or amendment;
- Molecular manipulation for enhanced biological properties esp. with protein (cytokine) and gene therapy;
- Metabolic Syndromes and Energy Metabolism;
- Stem cell extenders and methodologies for clinical application;
- Orthopaedic biologicals for clinical application in Regenerative Medicine.
