The complete analysis includes both top-down and bottom-up approaches that are used to estimate and validate the market size of the market. This is to determine the size of various other dependent submarkets in the overall market. The key players in the market have been acknowledged through secondary research, and their market shares have been determined through primary and secondary research. All percentage shares split, and breakdowns have been determined using secondary sources and verified primary sources.

### Key Takeaways:

- The global market for the Stair Lifts Market is primarily driven by the growing geriatric population who are more prone to diseases such as osteoarthritis (OA), rising incidences of lifestyle diseases such as obesity, and patients with physical disabilities.
- Straight Stair Lifts holds a significant market share and are the most common type of rail due to it is easy and fast to install and require minimal training for the user and simplicity in design which makes it comparatively low cost. The indoor segment dominates the market share owing to the rising geriatric population, developing home healthcare market, product launches, and growing inclination of aging and disabled population toward active and independent living.
- North America accounts for the largest share in the global Stair Lifts market. This can be mainly attributed to factors such as increasing awareness among the public regarding benefits of stairlifts, including ease of accessibility, growing geriatric population, rising incidences of obesity, and patients with physical disabilities.
- Adopting merger and acquisitions policies, and regional expansion to help key market players to stand out as strong competitors in the Stair Lifts market. For instance, in March 2019, Yorkshire-based Company, Platinum Stairlifts partnered with mobility retailer Dolphin Mobility Yorkshire and Cumbria to become an integral partner for the official launch of the Ultimate Stairlift.
