Companies in the financial services sector are in the business of handling money. Globally, the financial services industry dominates the world in respect of equity market capitalization and earnings. Big conglomerates lead this sector, but it also consists of a assorted range of smaller firms.

The financial services market comprises the revenues of money related or financial services by several bodies (sole traders, partnerships, and organizations) that deal with financial services related activities such as investment management, lending, brokerages, insurance, fund transfer services, and payments. The financial services sector has been segmented based on the business model of the firms existing in the industry. Most organizations extend multiple services. Revenues include commissions or interest payments, fees, and transaction charges.
