(HSRC) published a new report, Intrusion Detection Modernization Market in Homeland Security & Public Safety – 2019-2025, which consists of 3 volumes, and presents a thorough analysis of 5 vertical markets, 5 technology markets, 5 revenue sources, 5 regional markets and 43 national markets, detailing 234 relevant 2018-2025 submarkets in total. In addition, the report provides extensive and updated data on 147 Intrusion Detection products & services Vendors. According to the report, the market is expected to reach \$41 billion in 2025

This 1095-page market report is the most comprehensive review of the global Intrusion Detection Modernization Market available today. The objective of this mega-report is to provide today's strategic decision-makers with an expert 360-degree, time-sensitive, detailed view of this interconnected market.

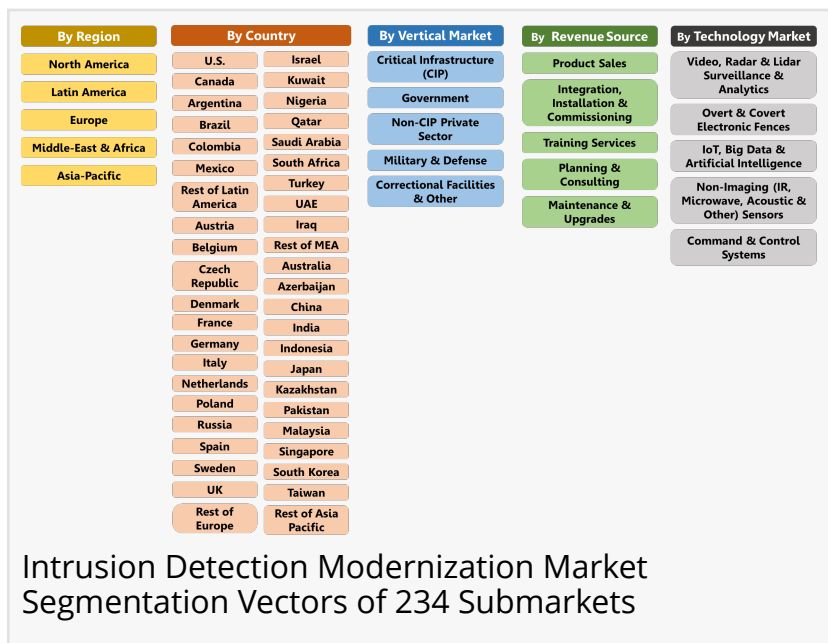

Intrusion Detection Modernization Market Share [%]
by Region – 2018-2025

New and maturing Intrusion Detection technologies, such as Artificial Intelligence, Smart Fences, IoT, Subterranean Tunnel Detection, Cybersecurity, Big Data, Data Analysis and Smart & Covert Sensors will create new market segments and fresh business opportunities.

Questions answered in this report include:

- What drives the customers to purchase Intrusion Detection solutions and services?
- What is the Intrusion Detection Modernization market size and what are the trends of 232 submarkets during 2018-2025?
- What are the submarkets that provide attractive business opportunities?

- Who are the decision-makers?
- What drives the customers to modernize their Intrusion Detection solutions and services?
- What are the customers looking for?
- What are the Intrusion Detection technology & services trends?
- What are the 10 Vertical and Technology markets SWOTs (Strengths, Weaknesses, Opportunities and Threats)?
- What are the challenges to market penetration & growth?

Key drivers of the Intrusion Detection Modernization in Homeland Security & Public Safety Market include:

- Terrorism and crime
- Cybercrime and cyberterrorism
- Trump administration's Mexican Wall funding
- Private Sector Security
- New and maturing technologies, (e.g., Covert Fences, IoT, Subterranean Tunnel Detection, Artificial Intelligence, Cybersecurity, Big Data & Data Analysis and Smart Sensors)
- The need to minimize the labor cost of CIP

The Global Intrusion Detection Market size data is analyzed via 5 independent key perspectives. With a highly fragmented market we address the "money trail" – each dollar spent, and the global aviation security market is analyzed and crosschecked via 5 orthogonal viewpoints, including five technologies, five vertical markets, 43 national markets, five regional markets, and five revenue source markets.
