The SafeCare Group Launches AI Software to Cut Avoidable Hospital Readmissions

SafeCare AI - Intelligent Healthcare

LEXINGTON, KENTUCKY, USA, July 16, 2019 /EINPresswire.com/ -- The SafeCare Group® has launched the SafeCare AI™ Suite, a comprehensive Artificial Intelligence (AI) software suite to aid proactive real-time decision support and target opportunities of care to cut avoidable hospital readmissions.

"Hospital readmissions are frequent, harmful and costly affecting 18 percent of Medicare patients," stated Yisrael Safeek, MD, MBA, CEO and Chairman, The SafeCare Group. "Over 2.3 million patients are readmitted within 30 days after discharge annually, incurring an annual extra cost of 17 billion dollars."

SafeCare AI software is able to extract and process valuable insight from EMR data in real-time, close to the data source, to transform it into knowledge to support instantaneous decision-making while cutting avoidable hospital readmissions.

Dr. Safeek stated, "The SafeCare Group invested heavily into AI to realize game-changing clinical, operational, and financial opportunities for hospitals. With SafeCare AI software suite, hospitals can admit patients, identify in real-time patients at risk, and initiate treatment interventions with proactive real-time decision support throughout the stay. SafeCare AI Suite allows hospitals to focus on outcomes, not administrative duties, while reducing cost."
