Coffee Pouches segment accounts for the lion’s market share of the global instant coffee market during the forecast period.

With the growing shift of key makers towards sustainable packaging, the global coffee packaging market by flexible pouches segment is expected to witness massive growth during the forecast period. The higher shelf life of instant coffee owing to powdered texture is propelling the growth of the global instant coffee market. As single-serve packets are more affordable and provide convenience to the consumers, they are experiencing strong demand in homes, cafés, hotels, and restaurants. Moreover, with the growing preferences of instant coffee over other beverages among the consumers, the instant coffee manufacturers have launched several flavored products to attract a wider set of audience and impact the instant coffee market globally.

Asia-Pacific is the fastest growing region of the global instant coffee market during the forecast period.

Geographically, Europe dominates the overall instant coffee industry and projected to lead the market over the forecast period due to high demand from countries like Poland, Bulgaria, and Russia. Europe has an age-old tradition of coffee-drinking, there is a high demand for instant coffee products in the region. Asia-Pacific is projected to have healthy growth throughout the forecast period. Additionally, increasing working class in emerging countries such as China, India has a positive impact on the growth of the market in the Asia Pacific region.
