Global Tissue Towel – Product Analysis

Based on the Product Type, the global tissue towel market is segmented as Roll Towel, Folded Towel, Center Pull Rolls, Napkins and Luxury Towels, and Boxed Towel. The roll tissue towel segment is expected to have the lion share in the global tissue towel market. The production of roll tissue towel is faster as compared to folded tissue towel as it does not require the cutting and folding process during packaging. In addition, it has advantages such as it occupies less space and contains a large amount of tissue which can be used for a longer time. These are widely preferred in the home as they are absorbent and durable and are available in bulk because cleanup is needed every time after cooking.

Global Tissue Towel – Application Analysis

Based on application, the global tissue towel market is segmented as Residential, Commercial, and Hospitals & Healthcare. The demand from healthcare & hospital majorly increases the overall sales over the globe. The growing significance of better hygiene in the healthcare sector has bolstered the demand for a tissue towel. In several regions, the mounting concern of contagious diseases has led to the demand for various tissue-towel products to be used in public places and commercial facilities.

Global Tissue Towel – Distribution Channel Analysis

Based on the distribution channel, the global tissue towel market is segmented as Hypermarkets/ Supermarkets, Convenience Stores, Pharmacies/Drug Stores, and Online Stores. The retail segment which covers supermarket, hypermarkets are expected to lead the global tissue towel market. In addition, the sale of tissue-towel is high due to its wide application and easy availability at every retail store with additional discounts on the product to attract large consumers is expected to trigger the growth of the global tissue towel market during the forecast period. Moreover, Manufacturers are focusing on promoting their product portfolio through the distribution channel.

Global Tissue Towel – Regional Analysis

Based on the region, the global tissue towel market is segmented as North America, Latin America, Asia Pacific (APAC), Europe, and Middle East & Africa. Asia Pacific is the fastest growing region in the global tissue towel market, due to the increase in international trading of tissue and tissue products in this region. On the other hand, Europe is expected to hold significant market share in the global tissue towel market, in terms of revenue, over the forecast period, owing to its attribute to new product launches and technological innovations in this region.
