According to the Massachusetts Mesothelioma Victims Center, "We are appealing to a person with mesothelioma anywhere in

Massachusetts or their family members to call us at 800-714-0303 so we can explain a little about the financial compensation process and help the diagnosed person get organized. When we say organized-we will help them to create a list of their various exposures to asbestos-literally make a list so that the attorneys at the law firm of Karst von Oiste can try to assess the value of the financial compensation package.

"There is no non-law firm offering a service like this that we are aware of-and helping a person with mesothelioma to make a list of their asbestos exposures is a very big deal. Without specifics of how, where and when a person with mesothelioma was exposed to asbestos the prospects for compensation are grim as we would like to discuss anytime at 800-714-0303. The list in the hands of a super capable mesothelioma attorney such as Erik Karst and his colleagues could become very valuable. We want a person with mesothelioma in Massachusetts to receive the very best possible compensation and we are certain Erik Karst and his colleagues at Karst von Oiste will help."
