

Global Feed Phosphate Market 2025 In-depth Analysis of Top Players, Current Trends, Development Status

An intelligence report has been added to the portfolio of WiseGuyReports titled, "Global Feed Phosphate Market Research Report 2019".

PUNE, MAHARASHTRA, INDIA, July 15, 2019 /EINPresswire.com/ -- [Global Feed Phosphate market 2019-2025](#)

The global Feed Phosphate market is valued at xx million US\$ in 2018 is expected to reach xx million US\$ by the end of 2025, growing at a CAGR of xx% during 2019-2025. Phosphates are derived from phosphate rock and is considered as an essential nutrient for effective performance of various functions including growth, repair, lactation and reproduction. These products are incorporated into the diets of animals and are mixed with commercial animal food such as fodder and other premixes for the effective results. These products promote better health and prevents diseases including rickets during the poultry production. High prevalence of animal diseases owing to improper diet and lack of essential nutrients in the body will drive the market growth. High economic growth accompanied with consumer willingness to spend on quality meat products such as pork, poultry and beef owing to high content of protein, vitamins and minerals is promoting the usage of meat consumption mainly in Asia Pacific region. Growing consumer preferences of youth population towards non-vegetarian diet in India, Indonesia and China will support the market growth. China is the largest pork producer in world, producing nearly half of the world's pork. Also, rising demand for processed meat products which are generally beef, chicken and pork based, owing to hectic schedule of consumers are expected to drive the market growth.

Global Market Outline: Feed Phosphate Market

The agriculture industry, one of the most dynamic industries, is a powerful tool to end extreme poverty and economic growth. The history of the agriculture industry dates back to the Indus Valley Civilization era and is responsible for generating employment to a substantial percentage of the global populace. The sector caters to food demands of the global population as well as the raw material requirements of other industries. Any changes in the sector affect the entire economy multiple times. The agriculture industry is currently facing multiple challenges, including the need to produce more food and fiber to feed a growing population with existing, limited resources. Water scarcity and limited availability of arable land remain challenges. The

need to adapt to climate change and achievement of sustainability also remain key areas of concern.

The key players covered in this study

ADDCON

BASF(Germany)

BIOMIN Holding(Austria)

Corbion(Netherlands)

Eastman Chemical(USA)

Impextraco(Belgium)

Jejo Nutrition(Canada)

Kemin Industries(USA)

Novus International(USA)

Perstorp Holding(Sweden)

Trouw Nutrition(Netherlands)

Selko Feed Additives(Netherlands)

Yara International(Norway)

In this study, the years considered to estimate the market size of Feed Phosphate are as follows:

History Year: 2013-2017

Base Year: 2017

Estimated Year: 2019

Forecast Year 2019 to 2025

Latest update on Feed Phosphate Market

The agriculture sector is predicted to evolve with modern times. The current era with the perfection of industrialization and reliance on mechanization is likely to bode well for farmers. With pressure from economies, farmers are brushing up their methods and techniques to cater to growing food demands. Supportive policies to encourage the oldest profession combined with steps taken to protect farmers from fraud can be pivotal in the sector growth. Fertilizers form a major part of farming with the chemicals providing a constant supply of nutrients to crops. They are offered to farmers via subsidies or government schemes.

Market segment by Type, the product can be split into

Monocalcium Phosphate

Tricalcium Phosphate

Dicalcium Phosphate

Ammonium Phosphate

Defluorinated Phosphate

Market segment by Application, split into

Poultry

Cattle

Aquaculture

Swine

Pet

Market segment by Regions/Countries, this report covers

United States

Europe

China

Japan

Southeast Asia

India

Central & South America

Market size by Region

North America

United States

Canada

Mexico

Asia-Pacific

China

India

Japan

South Korea

Australia

Indonesia

Singapore

Malaysia

Philippines

Thailand

Vietnam

Europe

Germany

France

UK

Italy

Spain

Russia

View Detailed Report at <https://www.wiseguyreports.com/reports/3803233-global-feed-phosphate-market-research-report-2019>

Agriculture is one of the largest businesses of the world. Remarkably, they also have the most deeply liquid commodity markets. This liquidity offers outstanding conditions for the financial engineering of ecological financial outputs that could exploit and grow cross-commodity arbitrage opportunities, not only for agricultural commodities but also for GHG emissions reduction, energy efficiency, and renewable energy. The inflexion point for this sea transformation is expected to be the next two years. The agriculture sector has consolidated in recent years due to various developments such as the emergence of biostimulants, agricultural sensors, soil sensors, biofuels, and increased investment in training, and implementation of effective models and is likely to continue its growth in the coming years.

The study objectives of this report are:

To study and analyze the global Feed Phosphate market size (value & volume) by company, key regions/countries, products and application, history data from 2013 to 2017, and forecast to 2025.

To understand the structure of Feed Phosphate market by identifying its various sub-segments.

To share detailed information about the key factors influencing the growth of the market (growth potential, opportunities, drivers, industry-specific challenges and risks).

Focuses on the key global Feed Phosphate manufacturers, to define, describe and analyze the sales volume, value, market share, market competition landscape, SWOT analysis and development plans in next few years.

To analyze the Feed Phosphate with respect to individual growth trends, future prospects, and their contribution to the total market.

To project the value and volume of Feed Phosphate submarkets, with respect to key regions (along with their respective key countries).

To analyze competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

To strategically profile the key players and comprehensively analyze their growth strategies.

Table of Contents

1 Report Overview

2 Global Growth Trends

3 Market Share by Key Players

4 Breakdown Data by Type and Application

5 United States

6 Europe

7 China

8 Japan

9 Southeast Asia

10 India

11 Central & South America

12 International Players Profiles

13 Market Forecast 2018-2025

14 Analyst's Viewpoints/Conclusions
