LONDON, GREATER LONDON, UK, July 16, 2019
/EINPresswire.com/ -- The [textile manufacturing market](#) is expected to reach a value of nearly \$860.91 billion by 2022, significantly growing at a CAGR of 9.5% during the forecast period. The growth in the textile manufacturing market is due to high demand for ready to wear apparel products from developed countries and developing countries such as China and India, high demand for fabrics.

However, the market for textile manufacturing is expected to face certain restraints from several factors such as lack of available resources, increasing inventory levels,

counterfeit products and reduction in free trade.
