

# Sword GRC showcases Quality Management and Policy Management solutions at key launch event in Johannesburg

*Leading South African computer services company Sonke hosts GRC event 30 July, highlighting increased demand for risk, policy and quality management in business*

LONDON, UK, July 17, 2019 /EINPresswire.com/ -- [Sword GRC](#), a supplier of specialist risk, compliance and governance solutions, has announced that it will be showcasing its technology solutions at a launch event hosted by Sonke Governance, Risk and Compliance, a division of Sonke Computer Services Africa (SCSA Group). SCSA has been partners with the Sword group for 15 years, focussing on governance, risk and compliance (GRC) solutions in the African region.

## The GRC event

The event will be in the form of an interactive session and various scheduled one on ones. This will take place at the Houghton hotel on the 30th July 2019. The event will commence at 08h30, scheduled to finish at 16h30, with drinks and a lucky draw for the participants. The focus will be on how SCSA and Sword can assist various South African organisations, mitigate the risk of non-compliance with organizational policies, quality management and procedures.

Mr Kennedy Memani, Director of Sonke Governance, Risk and Compliance said; "We are all responsible for Governance, Risk and Compliance in our businesses and we look forward to discussing the challenges faced by every organization in this space. The aim of our event is to provide delegates with information and guidance to ensure good governance, risk and compliance in their own organizations. Sword GRC will bring valuable insights to the day's agenda with their technology and expertise in policy and quality management."

Salman Rauf of Sword GRC, who has worked with Sonke for several years commented: "We are delighted to be collaborating with Sonke on the launch of this new company primarily focused on GRC in the region. It is vitally important for companies today to have a clear, accurate and timely view of quality and policy changes across regulatory and legal pre-requisites, for executives and employees alike, whichever vertical sector. The event will be an opportunity for attendees to discuss these business challenges and learn more about both GRC processes and Sword GRC's technology solutions that can support them in their own organizations."
