PUNE, MH, INDIA, July 18, 2019 /EINPresswire.com/ --

Automotive Camera ADAS Market - 2019-2025

Report Summary:

Technological developments have now progressed a long way in automotive sector. Present day systems use signals from a wide variety of sensors around the vehicle to support the driver. These new systems are known as Advanced Driving Assistance System (ADAS). They are electronic devices which work for the driver in certain driving situations by focusing on safety aspects and enhancement of driving comfort. New cars have many advanced driver assistance systems that help and assist the driver in driving and parking situation. The key factors driving growth of the ADAS market include government regulations for installation of ADAS, escalating ADAS demand, inclusion of ADAS in new car assessment program and increasing adoption rate of vehicle safety technologies. However, market growth is hindered by factors such as complexity in the features of ADAS, environmental factors, and testing and validating hurdles. The major trends featuring the market include increasing electronic content in cars, rapid expanding hybrid and electronic car market, growth of active safety systems, and evolution of zero traffic fatalities.
