All of my current gas stations have convenience stores attached. Over the years, this endeavor has proven to be extremely successful, and I'm interested in expanding my reach in this market even further."

Mr. Bansal continued, "I own and operate a 1200 square foot Mobil station and convenience store in a densely populated area at Broadway and the 101 freeway in Tempe. However, there are very few options for customers in that area for groceries and convenience store items. I'm in the process to expand this storefront to offer more groceries for customers such as fresh produce and prepared foods and desserts, and we are considering a drive-thru option for our client's convenience as well. We are looking at possibly doubling the size with a new remodel and renovation that we are working with the City of Tempe at this time."

"Mobil gas keeps an engine 2x cleaner than other fueling options. They specialize in Synergy™ gasoline, which offers better gas mileage, better performance, improved engine protections, and lower emissions. I'm thrilled to have partnered with Mobil when I did, and I look forward to a successful future with them."
