 - 3) Agenda 21, Land expropriations 2019 in Ontario,
 - 4) Forensic Auditing of our Financial Public Assets and IFRS,
 - 5) National Security, and 53 million new migrants expected for Canada,
 - 6) Pure Direct Democracy v. Open Government fraud, etc.,
 - 7) Global Government and global citizenship, forfeiting national citizenship,
 - 8) The Two Row Wampum & The Great Law Democracy for Canada,
 - 9) Public Interest Canadian and Indigenous Nations Constitutional "Sovereignty", Class Action lawsuits,
 - 10) 50/50 Direct democracy governance and 100% VETO power by the people on each side of the Two Row Wampum is needed.
- Fee: Donations with RSVP ticket or at door to help cover costs.

Together, we can:

- Stop 5G from being implemented, given its proven scientific research negative health effects,
- End privatization of our government services, health care and governance
- End Canadian offshore havens to stabilize our economy and minimize taxation for the people
- End Government financial accounting, fraudulent misrepresentation of assets.
- End Agenda 21, cop21 and Agenda 2030 International control in our country.
- Protect our country, our collective rights, nationality and economic sovereignty from an imposed global government.
- Control Canadian politics, governments and laws.
- Collectively Govern and prosper in our free democratic country, the proper way.

How can we do this?

Our highly qualified speakers in their fields and panellists will help explain; what is happening in Canada, how some of it happened and the consequences involved for all Canadians and the Indigenous Nations.

Furthermore, our solutions-based seminar will demonstrate how together, we can freeze all actions undertaken by our governing bodies and public assets officers undertaken without our express written consent, through the supreme court, until the Canadian people and Indigenous Nations become better educated and knowledgeable about the seriousness of what our governments are doing within their participation in globalization, and how their actions already affect and jeopardize our future, security, prosperity and health.

It is vital that all Canadians and Indigenous Peoples to finally know and to understand how all levels of our government's actions will affect the rest of lives, our children and this country's future. It is also extremely important that everyone in Canada fully understand the consequences of becoming world citizens and then we can all decide together through referendums which direction and future we will decide to choose for all of us and how we will proceed to ensure that mistakes are not made.
