As the healthcare industry develops and changes, the latest business models are taking shape. Personalization of healthcare solutions is one such model. Consumers are making the most of personalized healthcare options, which offer a concierge service, thereby accommodating the care which they desire in the location and at a time, which is convenient. Pharmacogenomics or precision medicine has dramatically impacted the pharmaceutical research as well as healthcare technology. This patient care approach has experienced immense success in oncology by emphasizing the genetic makeup and protein interaction for a better and improved treatment prescription.

With all the changes mentioned above and much more afoot, the healthcare industry is all set to stay ahead in the game.
