

# Blood Meal Market 2019 Global Analysis, Growth, Size, Share, Trends, Forecast to 2026

*Global Blood Meal Market Supply And Consumption Analysis 2019 And Forecast To 2024 Market Research Report*

PUNE, MAHARASHTRA, INDIA, July 23, 2019 /EINPresswire.com/ -- [Blood Meal Industry](#)

## Description

Global Blood Meal Market is expected to reach \$2.49 billion by 2026 growing at a CAGR of 4.2% during the forecast period. Some of the key factors driving the market growth are growing demand for meat products in developing countries, increasing consumption of livestock products and rise in feed production. However, increasing costs of raw materials may hinder the market growth.

The dried form of blood is called Blood Meal and is used for feeding animals. Blood meal is nitrogen-rich and organic, often used as a fertilizer providing mineral and nutrients for plants. In the form of fertilizer, it is also useful in scattering herbivorous animals. Blood meal is used as feeding material for procaine, ruminant, poultry, and aquatic animals.

All geographical markets ranging from emerging to matured ones have been covered in the report. The all-inclusive analysis of key regional markets of North America, Rest-of-the-World (RoW), Europe, and Asia Pacific (APAC) along with detailed analysis of country-level markets are also included in the report. Major players operating in the global Blood Meal Market have also been profiled in the report to present a picture of the competitive scenario of the market.
