PUNE, MAHARASTRA, INDIA, July 26, 2019 /EINPresswire.com/ -- [Reinsurance Services Market](#)

Reinsurance, also known as insurance for insurers or stop-loss insurance, is the practice of insurers transferring portions of risk portfolios to other parties by some form of agreement to reduce the likelihood of paying a large obligation resulting from an insurance claim. The party that diversifies its insurance portfolio is known as the ceding party. The party that accepts a portion of the potential obligation in exchange for a share of the insurance premium is known as the reinsurer. Global economic growth slowed in 2016 as both advanced and emerging markets saw diminished growth. While both equity markets and interest rates progressed favorably toward the end of 2017, improvement can at best be gradual with the political landscape being in a flux.

In 2018, the global Reinsurance Services market size was 254900 million US\$ and it is expected to reach 318900 million US\$ by the end of 2025, with a CAGR of 3.3% during 2019-2025.
