

International Shipping Platform Parcel ABC Expands to Asia

Well known online shipping platform ParcelABC is expanding its activities in Asia.

LONDON, UK, UNITED KINGDOM, July 29, 2019 /EINPresswire.com/ -- From now on, shipments can be made to and from Hong Kong, Japan, Malaysia and Singapore. Also, domestic shipments in the following countries are possible.

ParcelABC is already shipping packages from any country across the globe and offers a large selection of services to and from its established markets of the United Kingdom, Spain, Poland, Lithuania, Ukraine, Australia, Italy and the United States. ParcelABC is also halfway to start activities in China.

According to Andrius Balkūnas, one of the founders of the ParcelABC online shipping platform, Asia was always the target country for the platform. "Asia is a very big market with a population of 4.6 billion. There are currently 993 million people using e-commerce services on a daily basis in Asia, with 454 million new users expected by 2021. So, there will be a total of 1.4 billion e-commerce users by 2021, this will represent 53% of the total population. We see a huge potential in Asian market, that is why our goal is to expand our activities and to operate successfully and with highest quality standards." says Mr Balkūnas.

The goal of Parcel ABC is to offer a full range of parcel delivery options in the global markets. The main purpose of ParcelABC is to make delivery from door to door possible and affordable for anyone all around the globe. ParcelABC shipping platform brings together large and small courier companies around the world and is one of the largest courier networks in the sector.

ParcelABC provides best prices in the market by uniting thousands of local and international delivery companies and fill their empty spaces with your packages and deliveries. This enables us to offer you a full range of services for express and economy delivery, using the most reputable and reliable courier companies.

ParcelABC's unique system makes it possible to send and receive packages quickly and at an affordable price without leaving your home. The system is built to be very easy to use for a person of any age or technological knowledge. To ship a parcel, all you have to do is enter the addresses of the sender and the recipient. The price of the service depends on, where the sender and the recipient are located as well as the weight, dimensions of the parcel itself and the speed of service required.

Also, the system generates you unique shipping code, and by entering it to the system you can

track the entire process of delivery online. So you always know when the courier will ring your doorbell.
