White House Doctor For 20 Years

“

I am very honored to be a part of this collaboration. I believe that working together we will be able to have a major impact on the Veteran and homeless situation in L.A.”

Dr. Antoine Chevalier

primary care. Suicidal ideation, Addictions, Depression, Traumatic Brain Injury Concussion, Chronic pain and Headache. Dr Chevalier will conduct research study using the Functional MRI, under the supervision of Dr Gill and the other doctors and partners. The homeless and Veterans will also have access to Job training and employment. Entrepreneur training & Business Development. The project is scheduled to launch Sept. 7, 2019.

Approximately 50,000 people are experiencing homelessness in and around L.A., according to the latest

count by the Los Angeles Homeless Services Authority. The vast majority of them live unsheltered on the streets. According to city officials and nonprofit leaders, there's a growing

frustration among L.A. residents who — despite the city's big new investments in housing and services — continue to confront L.A.'s homeless crisis in their daily lives.

the National Vietnam Veterans Readjustment Study (NVVRS). It is estimated that about 30 out of every 100 (or 30%) of Vietnam Veterans have had PTSD in their lifetime. According to recent statistics, 18 to 22 veterans die by suicide every day due to severe depression, chronic anxiety, sexual or other trauma, serious substance abuse and many other PTSD-related afflictions. Nonetheless, only 30 to 40% of veterans and military personnel diagnosed with severe mental or emotional distress seek professional help. Much of this has to do with the costliness of traditional therapy and the lack of access to military or civilian mental health providers. Over 540,000 Veterans Have Been Diagnosed With PTSD

Dr Chevalier [has been treating Veterans for Post-traumatic stress disorder](#) commonly referred to as (PTSD), resulting in very significant results that are proven with scientific documentation.

Dr. Antoine Chevalier has been published multiple times in international peer reviewed scientific journals.
