

Electronics Manufacturing Conference to Host 130 Technical Presentations Over Four Days in Rosemont, Illinois

MINNEAPOLIS, MINNESOTA, UNITED STATES, August 6, 2019 /EINPresswire.com/ -- The Surface Mount Technology Association (SMTA) will host the 20th annual SMTA International Conference and Exhibition, dedicated to advancing the electronics manufacturing and assembly industry. Taking place September 22-26, 2019 at the Donald E. Stephens Convention Center in Rosemont, Illinois, this conference will feature over 130 technical presentations covering eight technical tracks. Technical tracks will cover the Technical Innovations Symposium, Harsh Environments Symposium, Lead-Free Soldering Technology Symposium, Advanced Packaging Technology; Manufacturing for Excellence - process and assembly; Substrates/PCB Technology; Flux, Solder and Adhesives; and Inspection Technologies. Engineers from major manufacturing companies such as Celestica, Collins Aerospace, Flex, Harris, IBM, Intel, Jabil, Nokia Bell Labs, NXP Semiconductors, Raytheon, Rockwell Automation, several universities and more will present their latest research on critical process improvements, new materials and technologies.

Fifteen half-day professional development courses will be offered Sunday and Monday from expert instructors on topics including Design, Stencil Printing, Soldering Profiles, Process Troubleshooting, Solder Joint Reliability, Reflow, Wave Soldering, Defect Analysis, Cleaning, Bottom Termination Component (BTC) issues, and more.

NASA, Lockheed Martin Space and Lenovo Corporation will provide keynote presentations. All attendees are invited to experience this complimentary offering along with numerous events for engineers and professionals in the electronics manufacturing industry while attending SMTA International.

Over 160 exhibiting companies will display equipment, materials, and services at the Electronics Manufacturing Exhibition, which will be held Tuesday and Wednesday, September 24 - 25. Other attractions on the show floor include demonstrations from John Deere Electronic Solutions and presentations on assembly basics for young professionals and new engineers.
