

## Global Reagents & Hematology Analyzers Market Size, Share And Key Players Research Report

TheBusinessResearchCompany.com offers Hematology Analyzers And Reagents Global Market Report 2019 from its research database.

The Global Hematology Analyzers And Reagents Market Was Valued At About \$3.19 Billion In 2018 And Is Expected To Grow To \$4.27 Billion At A CAGR Of 7.6% Through 2022."

Abdul Wasav

LONDON, GREATER LONDON, UK, August 8, 2019 /EINPresswire.com/ -- The global hematology analyzers and reagents market was valued at about \$3.19 billion in 2018 and is expected to grow to \$4.27 billion at a CAGR of 7.6% through 2022.

The hematology analyzers and reagents market consists of sales of hematology analyzers and reagents. Hematology analyzers provide complete blood count (CBC) with a three part differential white blood cell (WBC) count and can detect small cell populations to diagnose rare blood conditions, measure cell morphology.

The rising number of blood donations globally is driving the hematology analyzers and reagents market as hematology analyzers are used to test and screen blood in blood banks. Blood collected from donors through blood donation camps or bloodmobiles is sent to blood banks where hematology analyzers are used to screen and test the blood. These screening tests determine the blood type, analyze the blood plasma and detect infectious diseases. Blood banks are witnessing a huge outflow of blood to hospitals and other end-users and inflow of blood from blood donations on a daily basis. According to the World Health Organization, blood donations from voluntary unpaid donors increased by 11.6 million between 2008 and 2015. As the number of people donating blood increases, the demand for hematology analyzers and reagents increases, thereby driving market growth.

Recalls of defective hematology analyzers is acting as a restraint on the hematology analyzers and reagents market. A product recall is done by the manufacturer or developer of the product as a precautionary measure when safety issues or defects are discovered that can endanger the consumer. A faulty hematology analyzer may provide wrong results and may lead to misdiagnosis, affecting consumer confidence in the analyzers.

Hematology analyzers manufacturers are increasingly investing in the research and development of analyzers with microfluidics technology that use low volumes of sample and reagents. Microfluidics deal with the flow of liquids inside channels as small as a few

micrometers.

In January 2019, Luminex Corporation acquired flow cytometry portfolio of EMD MilliporeSigma for \$75 million. EMD Millipore Corporation supplies tools for biotechnology, life science and pharmaceutical industries. It was founded in 1954 and headquartered in Massachusetts, USA.

Major players in the hematology analyzers and reagents market include Abbott, Bio-Rad Laboratories, Horiba, Siemens, Sysmex.

Hematology Analyzers and Reagents Global Market Report 2019 is one of a series of new reports from The Business Research Company that provides hematology analyzers and reagents market overviews, analyzes and forecasts hematology analyzers and reagents market size and growth for the global hematology analyzers and reagents market, hematology analyzers and reagents market share, hematology analyzers and reagents market players, hematology analyzers and reagents market segments and geographies, hematology analyzers and reagents market trends, hematology analyzers and reagents market drivers and hematology analyzers and reagents market restraints, hematology analyzers and reagents market's leading competitors' revenues, profiles and market shares. The hematology analyzers and reagents market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More

Read Hematology Analyzers and Reagents Global Market Report 2019 from The Business Research Company for information on the following:

Markets Covered: global hematology analyzers and reagents market

Data Segmentations: hematology analyzers and reagents market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

Hematology Analyzers and Reagents Market Organizations Covered: Abbott, Bio-Rad Laboratories, Horiba, Siemens, Sysmex.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2014-18) and forecast (2018-22).

Other Information And Analyses: PESTEL analysis, hematology analyzers and reagents market customer information, hematology analyzers and reagents market product/service analysis – product examples, hematology analyzers and reagents market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global hematology analyzers and reagents market in 2019 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Hematology Analyzers and Reagents Industry: The report explains a number of strategies for companies in the hematology analyzers and reagents market, based on industry trends and company analysis.

Opportunities For Companies In The Hematology Analyzers and Reagents Sector: The report reveals where the global hematology analyzers and reagents industry will put on most \$ sales up to 2022.

Interested to know more about The Business Research Company? The Business Research Company has published over 300 industry reports, covering over 2400 market segments and 56 geographies. The reports draw on 150,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. Here is a list of reports from The Business Research Company similar to Hematology Analyzers and Reagents Global Market Report 2019:

Hematology Diagnostic Devices And Equipment Global Market Report 2019

Hemostasis Analyzers Global Market Report 2019
