This part of the report provides an exhaustive view of the regional scope existing in the Global Ginger Root Extract Industry. The trends and preferences dominating each region has a direct impact on the industries. The report tries to exploit the trends and preferences prevailing in a region to offer the users with a clear picture of the business potential existing in that region.

The food & beverage industry serves as a strong pillar for the economic growth of any nation. The food & beverage industry is involved in the processing of raw food materials, packaging, and distribution of fresh as well as prepared foods. The industry is broadly segmented into production and distribution of edible goods. Production involves the processing of meat products and cheeses, and the creation of alcoholic beverages, packaged foods, and soft drinks. It excludes that are directly produced through farming and other forms of agriculture. Distribution segment is concerned with the transportation of finished products to the consumers.

Consumers are in the driver's seat in the food and beverage industry and govern how the industry functions. Free flow of information and the influence and reach of new media has led to presents challenges to the industry retailers and manufacturers. Purchase decisions are increasingly based on how products are made and where they are made. Additionally, unlike earlier days, when nutritional content was the solitary consideration in purchase decision, consumers weigh additional product attributes such as qualitative product claims and longer-term considerations. Furthermore, consumers are more inclined towards companies who operate in a more responsible way. These include environmental responsibility, food safety commitment, sourcing of products, role in the community, and fair treatment to workers. Customer convenience has become a key area of concern for the food & beverage industry. In their quest to satisfy consumers, the industry is slicing and dicing customer data for targeting consumers as per their preferences.
