

## Active Pharmaceutical Ingredients: Global Markets to 2022 | Cambrex Corp., BASF, Dishman Group, Lonza

Active Pharmaceutical Ingredients -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2023

PUNE, MAHARASHTRA, INDIA, August 8, 2019 /EINPresswire.com/ -- <u>Active Pharmaceutical</u> <u>Ingredients Industry</u>

## Description

The report issued on WiseGuyReports, concerning the Active Pharmaceutical Ingredients market states every actionable force disrupting the Active Pharmaceutical Ingredients market growth. A top-down and bottom-up approaches were employed in the preparation of the report on Active Pharmaceutical Ingredients market. The Active Pharmaceutical Ingredients market has been analyzed from the year 2019 as the base year to 2025 as the end year. The entire report has been sectioned into an overview of the Active Pharmaceutical Ingredients market, segmental outline, regional outlook, competitive dashboard, and the market updates. The Active Pharmaceutical Ingredients market statistics and the market highlights. Proficient analysts applied modern research methodologies for extensive primary and secondary research on the Active Pharmaceutical Ingredients market.

## **Report Scope**

This report (Active Pharmaceutical Ingredients: Global Markets to 2022) covers an overview of the pharmaceutical industry landscape and active pharmaceutical ingredients (API), along with the current trends and dynamics shaping the API market landscape. API sourcing trends and regulatory guidelines that impact the procurement of API are studied here. The increasing importance of API outsourced manufacturing activities and the impact on the pharmaceutical industry are covered in the report.

The API market is segmented into categories: molecular entity, manufacturer type, end use and region. The API market is segmented into two molecular entity groups: natural and synthetic API. Synthetic APIs are further segmented into chemical synthesis, biocatalytic and cell culture. Under the category of molecular entity, APIs are segmented into small molecules and large molecules. By sourcing type, the market is segmented into captive market, merchant market and contract manufacturing organization (CMO). In terms of end use, the market is segmented into clinical trial use and commercial use.

In terms of geography, this report analyzes the market by the following regions: North America, Europe, Asia-Pacific, Latin America and the Middle East. The API market is very fragmented. Therefore, attempts have been made to present the market share held by selected companies.

## **Report Includes**

- 38 data tables and 32 additional tables

- Detailed overview of global market for active pharmaceutical ingredients (APIs) within the pharmaceutical industry

- Country specific data and analysis for United States, Canada, Mexico, France, Germany, U.K., Italy, Spain, China, India, Japan, Brazil, South Africa, and UAE

- Segmentation of the global market by molecular entity, manufacturer type, end use, and geographical region

- Identification of factors such as challenges, trends and emerging opportunities that impact the future market dynamics

- A look at the current regulatory updates, new developments, mergers and acquisitions and partnership activities, and patent expiry shaping the API market landscape

- Examination of vendor landscape and detailed profiles of the major vendors in the global API market, including Teva Pharmaceutical Industries, Cambrex Corp., BASF, Dishman Group, Lonza, and Sun Pharma

**Research Methodology** 

To understand the market potential in a precise manner, the global market has been analyzed according to the strictures mentioned in Porter's Five Force Model. Also, the active pharmaceutical ingredients market has been studied using SWOT analysis, and it highlights various strengths and opportunities, threats, and weaknesses that are associated with the industry.
