Already, tracks from the EP—such as "hungover sunday," "head first," "breaking all the rules," and "heavy snow"— have cumulatively tallied hundreds of millions of streams and counting as well as receiving looks from Billboard, Atwood Magazine, and CelebMix. Acoustic guitar propels the upbeat title track "bright side of the moon" forward at light-speed. The song subsides into a luminous pre-chorus before blasting off into a falsetto-punctuated refrain.

Elsewhere on the six-track set, "call me your love" pairs hummable electric guitar leads and handclaps with an unshakable chant, "just call me your love tonight." The song showcases his expansive vocal range over a lively and lush soundscape upheld by organic instrumentation.

About the EP, Christian shared, "bright side of the moon is about finding the energy and enthusiasm to stay optimistic in even the most trying times of life. This past year, I've spent a lot of time trying to figure myself out, and I've found how important that positive mindset is when facing new challenges. The project encompasses both my personal life and life as a musician. I've realized life is always going to throw you curveballs. There's no way to know what's coming and no way to perfectly deal with things. All you can do is your best in every situation and approach challenges optimistically with the knowledge that there is a light at the end of the tunnel. What you're going through will help you continuously grow and become a better version of yourself. That's what this is about."

Next up, Christian launches his first headline tour, the bright side of the moon Tour. It kicks off
