Victims Center*

To ensure a person with mesothelioma in California receives the best possible compensation results the California Mesothelioma Victims Center is now offering to assist a person document their various exposures to asbestos in a service they call the 'list.' The list answers vital questions about how, where and when a person with mesothelioma was exposed to asbestos and it becomes the foundation for a mesothelioma compensation claim as they would be happy to discuss anytime at 800-714-0303. <https://California.MesotheliomaVictimsCenter.Com>

According to the California Mesothelioma Victims Center, “If you have just been diagnosed with

mesothelioma anywhere in California please call us anytime at 800-714-0303 so that we can start working on the list-documenting your asbestos exposures and we will get attorney Erik Karst and his colleagues at Karst von Oiste involved in the conversation. If you want the best possible mesothelioma compensation please call us anytime for our unsurpassed services." <https://California.MesotheliomaVictimsCenter.Com>

For the best possible mesothelioma treatment options in California the California Mesothelioma Victims Center strongly recommends the following health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at one of these three hospitals:

* UCLA Medical Center Los Angeles, California: <https://cancer.ucla.edu/>

* Stanford Cancer Institute: <http://cancer.stanford.edu/>

* University of California San Francisco, San Francisco, California: <http://mountzion.ucsfmedicalcenter.org/>

The California Mesothelioma Victims Center also wants to emphasize theirs is a statewide unsurpassed service that is available to any diagnosed victim in California including communities such as Los Angeles, San Diego, San Francisco, San Jose, Riverside, Fresno, Sacramento, Oceanside, Palm Springs, Riverside, or Eureka. <http://California.MesotheliomaVictimsCenter.Com>

High-risk work groups for exposure to asbestos in California include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, chemical plant workers, manufacturing workers, plumbers, electricians, auto mechanics, machinists, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, mesothelioma and asbestos exposure lung cancer happen to over a thousand people each year in California. www.karstvoniste.com/

For more information about mesothelioma please refer to the National Institutes of Health's web site related to this rare form of cancer: <https://www.cancer.gov/types/mesothelioma>.

For more information about asbestos exposure lung cancer and mesothelioma please visit the CDC's website on these topics: https://www.atsdr.cdc.gov/asbestos/health_effects_asbestos.html.
