

Fresenius Kabi to Deliver Two Spotlight Sessions at SMI's Pharmaceutical Manufacturing & Cleanroom Technology Conference

SMi Reports: conference set to explore contamination control in pharmaceutical aseptic manufacturing using cleanroom and barrier technologies this October

LONDON, GREATER LONDON, UNITED KINGDOM, August 13, 2019 /EINPresswire.com/ -- The inaugural [Pharmaceutical Manufacturing and Cleanroom Technology conference](#) is set to commence on 9th and 10th October 2019 in London, UK.

The conference will feature key opinion leaders from all areas of the pharmaceutical, biological and cleanroom industry to explore the current topics within [cleanroom design and engineering](#), best practices and regulation, environmental and contamination control, and pharmaceutical microbiology.

Industry experts from [Fresenius Kabi](#) will be delivering a spotlight session on day-one of the conference:

'Contamination Control Elements for Manufacturing Units and Compounding Centers' will focus on:

- Importance of design elements (e.g. design of cleanroom and equipment) for contamination control
- Importance of procedural elements (e.g. cleaning and disinfection) for contamination control
- Tools to verify implemented contamination control elements are effective
- Challenges, case examples and areas to especially look for

'Implementation of an Aseptic Mentoring Program (AMP) in Manufacturing Sites' will focus on:

- How it works, what are the targets and how to be successful
- How to set it up, points to consider, aseptic mentors, how to perform audits for aseptic technique
- Experience and lessons learned

The event brochure with the full agenda and speaker line-up is available to download online at

SMi Presents the Inaugural Conference...

Pharmaceutical Cleanroom Technology Europe

Addressing the Microbiological Aspects in Cleanroom Design and Engineering

9 - 10 October 2019
Cophthorne Tara Hotel, London , UK
