

RDI Announces Miniature SMT Industrial Speaker Series

MOUNT KISCO, NY, USA, August 13, 2019 /EINPresswire.com/ -- RDI today announced a new line of industrial strength compact, low-profile, metal frame miniature SMT speakers housed in packages as small as 15 mm x 9 mm. With profile depths as low as 3 mm, these miniature metal frame SMT speakers offer a variety of power ratings from 1.0W to 2.0W with 4 ohms impedance.

Available in rectangular packages, the miniature SMT mount speaker series provides a number of mounting styles depending on the user's need. Sound pressure levels range from 89db up to 102db at 0.1 meters. All models are RoHS compliant.

Target applications include industrial grade devices, consumer electronics, industrial automation, [voice services](#), portable and stationary medical equipment, safety and security and more. With its numerous performance and size configurations, the industrial miniature speaker series is able to match a wide range of application requirements.

Available in August 2019, the RDI miniature SMT speaker series provides a rugged, low cost solution to audio applications of all types.
