A number of ecological programs are managed by the property in line with its vision to promote awareness about environmental protection amongst employees, partners and collaborators as well as the wider community. The Fortress Resort & Spa runs a turtle conservation project and each year guests are encouraged to participate in efforts to assist turtle hatchlings make their way to the sea. The turtle nesting season will soon take place and the resort is busily preparing to welcome the arriving mothers and new baby turtles.

Last month, the hotel's Green Team and other members took part in one of their regular beach clean ups removing over 200 kg of plastic and other waste from neighbouring beaches.
