

Adrenocortical Carcinoma Drugs Market -Global Business Overview, Key Players Analysis, Segmentation, Applications Report

New statistical report "Adrenocortical Carcinoma Drugs Market" added by wiseguyreports to its extensive database.

PUNE , MAHARASHTRA , INDIA , August 16, 2019 /EINPresswire.com/ -- The adrenocortical carcinoma drugs market has recorded the development of several advanced imaging techniques, which are non-invasive, and exhibit enhanced diagnostic accuracy in the detection of adrenal lesions.

For instance, unenhanced computed tomography adrenal densitometry is used to differentiate adrenal adenomas from malignant lesions based on the presence of intracellular lipids. A combination of positron emission tomography/computed tomography is also gaining popularity among end-users for the identification of malignant and benign lesions. Similarly, multiphase computed tomography technique is being used to calculate absolute and relative percentage washout, and thereby, differentiate between benign and malignant lesions.

In 2018, the global Adrenocortical Carcinoma Drugs market size was xy million US\$ and it is expected to reach xy million US\$ by the end of 2025, with a CAGR of xy% during 2019-2025.

The report has been prepared using an innovative and effective research methodology. Both primary and secondary sources were consulted for market analysis and finding insights. A wide range of resource materials are explored to find market details on a granular level. Use of a multi-layer varication process ensures high accuracy of the findings. In addition, application top-down and bottom-up approaches confirms research authenticity.

With technological advancements in the Pharmaceutical industry, people are becoming smarter and more aware of leading a healthy life. People's consciousness for their health has led to the acceptance of highly innovative and more efficient systems, together with hospitals and other forms of healthcare service providers. Following the constant adoption of latest technologies, this industry is experiencing a significant transformation.

Major key Players

Bristol-Myers Squibb Co.
Eli Lilly and Co.
Laboratoire HRA Pharma SAS
Progenics Pharmaceuticals Inc.
Teva Pharmaceutical Industries Ltd.

Market segment by Type, the product can be split into

Chemotherapy

Targeted therapy

Market segment by Application, split into

Hospital

Research institute

Clinic

Other

Market segment by Regions/Countries, this report covers

North America

Europe

China

Japan

Southeast Asia

India

Central & South America
