For the third year in a row PCI Group has earned the distinction of being included in the INC 5000 Fastest Growing Companies in America listing.

FORT MILL, SC, USA, August 19, 2019 /EINPresswire.com/ -- For the third year in a row, and the fourth time overall, PCI Group has earned the distinction of being included in the INC 5000 Fastest Growing Companies in America listing. Once again, PCI has shown that it is one of America's best companies and an industry leader in transactional print and mail for those businesses that require ultra-secure and highly compliant communications.

Designed to recognize companies that show significant and sustained growth, the INC 5000 list considers 3-year growth figures for business from a variety of industries. For PCI Group, this recognition marks a consistent pattern of sustained growth for an established family owned company in its 49th year of business. Chris Kropac, President

PCI's business continues to thrive. To keep up with customer demand, the company expanded its operation at the end of 2017, opening a new 62,000 square foot production facility in the metro Dallas area. The new facility features state of the art security, high speed ink-jet production equipment and full integrity insertion. By adding this operation, PCI has increased its ability to serve the Fortune 1000 and extend its reach to serve customers in the central and western regions of the United States.

"It's been another remarkable year, said Chris Kropac, PCI Group's President. With the expansion of our operations in Dallas, winning two new long-term, multi-million-dollar outsourcing bids and the advancements we have made in adopting a Lean manufacturing environment, we have

made great progress. The print and mail industry have gone through some tremendous transition over the past couple of decades, yet our business continues to thrive by innovating and focusing on our customer needs. Our relentless efforts to make improvements to our business have enabled us to provide customers with the highest accuracy rating (99.9999%) in the industry. And in our business, when even one mis-handled item can have serious consequences, accuracy is paramount. I am very proud of what we've accomplished."

For PCI Group, finishing at 2545 in this year's INC 5000 list continued its streak of earning industry and civic recognition. In addition to the recognition it has received from INC 5000 the past three years, PCI has also been recognized by the SC TOP 25 Fastest Growing Companies program; by Grant Thornton in its South Carolina 100 list, the Charlotte Business Journal Fast 50 companies list and has earned several other business and community awards.
