

Blue Raven Solar Ranks Among America's Fastest Growing Private Companies

Blue Raven Solar Ranks on the 2019 Inc. 500 List of Fastest Growing Companies in America With Three-Year Revenue Growth of 1,673 percent

OREM, UT, UNITED STATES, August 20, 2019 /EINPresswire.com/ -- Inc. magazine announced that Blue Raven Solar has made the Inc. 500 list, the most prestigious ranking of the nation's fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses.

"We're excited to be ranked among the fastest growing companies in America, and we're looking forward to the future of Blue Raven Solar and the impact it will have in the lives of our customers as well as on the environment," says Ben Peterson, CEO of Blue Raven Solar.

"The companies on this year's Inc. 5000 have followed so many different paths to success," says Inc. editor in chief James Ledbetter. "There's no single course you can follow or investment you can take that will guarantee this kind of spectacular growth. But what they have in common is persistence and seizing opportunities."

Peterson states that Blue Raven Solar has been successful because of its focus on the customer experience and on building a high-trust culture among employees and customers. "Without high trust relationships between the company, employees, customers, and partners, we can't deliver on our mission of making homeowners' lives better. We must do what we say and say what we do or else the rest is for nothing," he said.

Blue Raven Solar provides homeowners across America with a simple and affordable way to get the best solar technology while saving on their utilities. In less than five years, the company has gone from three to over 700 team members nationwide and become a top solar company in the nation.
