Passing a CLEP or DSST exam shows that you have a fundamental and working knowledge of a college-level subject. This becomes a part of your permanent college transcript. As a result, you do not have to pay tuition for that class, buy textbooks, attend class, turn in assignments, or take mid-terms and finals. DSST and CLEP exams can fit into the life of anyone pursuing a college degree, not just full-time students! Military service people, homeschool students, and working adults all use DSST and CLEP to streamline their route to a college degree, finding that it fits into their active lives.

There are various options for preparing for your DSST and CLEP, including reading through old textbooks, plowing through workbooks, or just winging it. SpeedyPrep's™ online materials offer an alternative that is based on the mastery learning technique. The repeated demonstration of correctly answering questions leads to facts and concepts being locked in your memory, ready to recall when you take your exam.

When you use SpeedyPrep's™ flashcard teaching system, you will be giving yourself the repeated experience with the facts, terms, and concepts you need to know to pass your DSST or CLEP exam. The explanations and videos that accompany the flashcard questions will give you added context and understanding of what you are learning. When you answer your SpeedyPrep™ flashcards correctly multiple times, the knowledge and information you are gaining will lock into your memory.

The SpeedyPrep™ progress bar will fill in as you master your material and you can watch it as it fills to 90-100%. At that point, you are ready to take your exam.

SpeedyPrep™ can be completed entirely online and can be used on any mobile device. No additional books or materials are required. SpeedyPrep™ offers a money-back guarantee. If you complete our program (fill your progress bar to 90-100%) but fail your DSST or CLEP exam, we will refund your money. We offer this guarantee because we know that our program works and we are committed to offering comprehensive curricula that meet the standards established for each DSST or CLEP exam.

DSSTPrep™ courses are available through the recently-launched website, <https://www.dsstprep.com>.

DSSTPrep's™ mission is to offer test prep material tailored specifically to each DSST subject exam, this truly prepares an individual to pass a DSST exam.
