

SME Sitebuilder Will Be Giving Away a Tonne of Free Digital Marketing Resources for Small Businesses

SME Sitebuilder, a revolutionary drag-n-drop website builder for small business, are giving away a tonne of free digital marketing resources to celebrate.

QUEENSLAND, QUEENSLAND,
AUSTRALIA, August 22, 2019
/EINPresswire.com/ --

In a refreshing change of pace, "[SME Sitebuilder](#)", will be celebrating the launch of its breakthrough website and sales funnel builder for small to medium businesses by giving away a tonne of free digital marketing resources (reports, checklists, courses, templates + more) later this month on the 30th of August.

SME Sitebuilder is a drag-n-drop [website builder](#) which helps business owners build high converting websites and marketing funnels without code or breaking the bank in a matter of minutes! Without the hassle of plugin updates, themes, complex hosting, security updates and so much more of those time and money wasting activities.

In a space where most competitors simply provide a "beautiful" website builder and fail to cause much of a stir, SME Sitebuilder has opted to go against the grain and do something much more impactful for small businesses. They say a "beautiful" website is not enough in this day in age to have success online.

Roger Chappel, Founder at SME Sitebuilder, says: "We wanted to be unique with our breakthrough website and sales funnel builder launch because we have a heart to see small business owners take back control of their businesses, so we are literally giving them the digital marketing tools, framework, resources and teaching needed to break free from spending thousands on third-party agencies and freelancers to build their online empire and claiming the life they have worked so hard for!

It should be really worthwhile and we're hoping it will transform small businesses into big ones if the owners or managers apply the basic principles we teach.

SME Sitebuilder has always thrived on the idea of standing out and making a commotion, simply by adding SO much value through free resources and training. It's all part of the fun and it's going to equip and empower business owners to take back control of their digital marketing and

sales. After all, without them they can't pay employees, rent and other costs, perhaps the most important tasks in a business! When a business is small, it is more cost effective to learn the basics of digital marketing first so business owners can identify what works and what doesn't, then iterate to a profitable solution.

Spending thousands outsourcing these tasks is too risky for small businesses. They are putting their entire business at the mercy of someone else!

Typically, business owners are usually the ones who are best equipped with their intimate knowledge about the ideal prospect, making them the best person to assemble and run a marketing campaign, they just need a framework or what we call an "automated ecosystem" to put their knowledge into good use!

We think that businesses who choose to do things the 'regular' way by outsourcing these important tasks will always be stuck between a rock and a hard place. The amazing thing is, once we learn the principles, we can't unlearn them! We know them for life and we'll be able to grow almost any business! This launch celebration is just one of the many things SME Sitebuilder is doing to help wake small business owners up to this reality and seize the day!

Here's how to get access to the free resources:

Go to the SME Sitebuilder home page

Download the free report "7 Critical Mistakes To Avoid When Creating A [Business Website](#)"

Follow the instructions on the thankyou page to get access to the "Empire Growth Bundle"

When asked about SME Sitebuilder, Roger said: "We think it's going to be a real hit because it combines your website, sales funnel, business insights and a framework into one easy to use and reliable platform for the price of 3-4 coffees a month. Plus significantly reduces the time and money required to manage complicated Wordpress websites and managing multiple different dashboards and subscriptions to do the same thing. It's a game changer".

SME Sitebuilder is set to launch Friday 30th August. To find out more, visit <https://smesitebuilder.com>
