

Tarps Now® Expands Concrete Curing Blanket Solutions for the Construction Industry

Company Increases Availability Standard and Custom Concrete Curing Blankets for Construction Firms

ST. JOSEPH, MI, UNITED STATES, August 22, 2019 /EINPresswire.com/ -- Due to

increasing demands of EPC Contractors and construction firms throughout North America, Tarps Now® is pleased to announce the addition of new lines of rugged [concrete curing blankets](#) engineered to meet the needs of the construction industry.

Tarps Now® manufactures its concrete curing blanket lines using the toughest woven polyethylene fabric and engineered for correct insulation and extended longevity. In addition, these new lines of concrete curing blankets using a flexible foam which provides the highest possible R value factor to accelerate the concrete curing process during all types of weather.

Being highly resilient and hydrophobic, the micro-foam selected by Tarps Now® during the manufacturing process ensures superior performance, with an outer poly outer shell that is extremely durable and long lasting. Tarps Now® concrete curing blankets also feature a deep black on the exterior to provide maximum temperature gain from solar heat, thereby maximizing interior insulation layer R values ranging up to 7.7.

Supporting the new array of Concrete Curing Blankets offered, Tarps Now® provides a variety of stock or standard sizes of concrete curing blankets ranging from 12-mil, 1/2-inch closed cell measuring 3 x 25 feet to 12-mil, to 1/4-inch closed cell blankets that are 12 x 25 feet. Further, as a U.S.-based custom manufacturer of tarps, covers and insulated curing blankets, Tarps Now® produces custom concrete curing blankets sizes for any project. In addition, wet concrete blankets also are available for ordering where conditions warrant this type of use.
