

# Allegheny County Bar Association Selects SimpleLaw As New Member Benefit

---

*Supporting Member Firms Growth and Efficiency*

CHICAGO, IL, UNITED STATES, August 27, 2019 /EINPresswire.com/ -- The [Allegheny County Bar Association](#) – the largest legal trade association in the Pittsburgh metro region – has selected [SimpleLaw](#), a case and practice management software solution that empowers attorneys to spend more time practicing law, as a benefit for its member attorneys. The addition of SimpleLaw helps Allegheny County attorneys increase their efficiency and grow their practices.

SimpleLaw was founded by attorneys in 2014 to serve attorneys and their clients. The cloud-based software empowers attorneys, clients, and paralegals to connect and collaborate on the same platform where cases and practices are managed--a first for the legal technology industry.

SimpleLaw's innovative approach to legal technology aligns with the Allegheny County Bar Association's commitment to cultivating a justice system that is accessible to all people regardless of economic status.

"Legal technology is, fundamentally, a disrupter that empowers attorneys to practice law more efficiently, which has real-world benefits," said Praveen Medikundam, Esq., co-founder of SimpleLaw and an active attorney. "With the ability to do more in the same amount of time, attorneys can take on more legal matters and serve more clients than ever before. The availability of access to justice increases."

"We're thrilled to welcome SimpleLaw aboard as our newest member benefit," said ACBA Executive Director David Blaner. "It's called SimpleLaw because it really is simple to use for both attorneys and the clients interacting with them. It reduces the amount of time attorneys spend on administrative tasks and allows them to spend more time practicing law. This is exactly the kind of product ACBA members tell us they're interested in."
