

Blockchain for Supply Chain Market Projection By Key Players, Status, Growth, Revenue, SWOT Analysis Forecast 2025

A new market study, titled "Global Blockchain for Supply Chain Market By Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

PUNE, MAHA, INDIA, August 27, 2019 /EINPresswire.com/ --

Blockchain for Supply Chain Market - 2019-2025

Report Description:

The evolving nature of technology has impacted a large number of markets and industries all around the globe. The Blockchain for Supply Chain market has also been positively influenced as a result. In the year 2017, the global blockchain supply chain market was valued at around USD 93.16 million. But it is expected that this prosperous industry will likely expand to USD 9,852.91 million by the year 2025. Thus there will be growth at 80.2 percent between the year 2018 and 2025.

One of the main reasons for the tremendous growth of the Blockchain for Supply Chain market is that the technology acts like an open ledger which eliminates the necessity to transfer crucial details and information between entities through emails. It ensures robustness and high level of transparency across all the levels of the supply chain management. In the past, the retail industry has dominated the blockchain supply chain market, and it is expected that this trend will continue during the forecasted period as well due to the rising popularity of Blockchain for Supply Chain among retail players.
