

Lori's Laboratory Introduces New Autumn Moon Collection

New release of artisan jewelry and sacred-space décor is expected to generate buzz within the worldwide pagan and alternative community

BLOOMINGTON, INDIANA, UNITED STATES, August 28, 2019 /EINPresswire.com/ -- Lori Treleven of [Lori's Laboratory](http://LorisLaboratory.com) is releasing the brand new Autumn Moon collection. Each artisan piece is designed or hand-crafted by the artist herself. The Autumn Moon collection is launching on September 4, 2019.

Lori's Laboratory is known worldwide for providing unique jewelry, artistic décor, and ritual tools to the Wiccan, pagan, and nature-loving community, helping them express their individual beliefs and style.

The release of the Autumn Moon collection on September 4 will introduce a new line of "Lunar Eclipse" pendants: totems and symbols in night-sky colors and embellished with genuine Swarovski crystals. Fresh designs will also be added to existing favorite categories, including new copper talismans and sculpted clay bowls and jars with flora and fauna motifs.

The collection will be available for purchase online at the Lori's Laboratory Etsy shop - LorisLaboratory.etsy.com - where many of the limited products are scheduled to sell out by the end of the season.

The witchy and nature-inspired jewelry and sacred-space décor are each individually designed by the artist with the mission of aiding intention-setting and evoking feelings of empowerment within every owner.

About Lori's Laboratory

Lori Treleaven started designing jewelry and unique jars and decor after noticing a gap in mainstream offerings for home and self, and a lack of representation for the needs of the pagan and alternative community. After years of experimentation testing methods of sculpting, painting, and applications of metal patinas, she released her pieces to the public and started gaining notoriety amongst the pagan industry. Her designs have since traveled to customers worldwide.
