

New Canadian VPS hosting offers by HostedinCanada.com

Canada based hosting provider offers amazing "Canadian VPS" hosting packages.

TORONTO, ONTARIO, CANADA, August 29, 2019 /EINPresswire.com/ -- HostedinCanada has built a Canadian based VPS system that lets you seamlessly scale your resources as your needs evolve. Their Cloud VPS servers provide the ultimate hosting experience, that will meet your exact demands. All of their [VPS Hosting](#) plans include:

- Enterprise quality hardware
- World-class data center
- Dedicated IP
- Full root access

The screenshot shows the HostedinCanada website homepage. The header includes the company logo, navigation links (HOME, HOSTING, DOMAIN NAMES IN CANADA, OUR SERVICES, RESOURCES & TOOLS, COMPANY, SUPPORT), and contact information (+1-866-730-2040, WebMail, LiveChat, Support, Login). The main content area features a large banner with the text "THE BEST VPS HOSTING IN CANADA DESIGNED TO MEET EVERY NEED." Below the banner, there is a section titled "Seamlessly scale your resources as your needs evolve." followed by "Our Cloud VPS servers provide the ultimate hosting experience, that will meet your exact demands." and a list of features: "All of our Cloud VPS Plans include: Enterprise quality hardware, World-class datacenters, Full root access, 24/7/365 Expert Support Based in the CANADA". An image of server racks is also visible.

They provide an amazing [Canadian VPS](#) Solutions for both startups and Fast-Growing business, which includes:

“

I have been a customer of Hosted in Canada for only 1 year, but in that short space of time have only good things to say about this company. Professional and reliable customer service, quick...”

Richard Dasilva

Virtualizor by Softaculous Control Panel

All VPS plans come with the amazing Virtualizor control panel. This amazing UI is efficient and light, with great visuals and is a simple yet intuitive Control Panel. It allows for easy automation, ready-made OS templates, managing passwords, backup, monitoring, API and more.

ROOT ACCESS

Their integrated automatic failover and hot migration tools make their Cloud VPS environment virtually impervious to hardware failures. Due to there being no single point of failure, we are able to provide you with near 100% uptime

and availability.

WORLD-CLASS DATACENTER

Our Calgary, Alberta Canada data center provides a safe, climate-controlled environment with access to high bandwidth Internet for hosting mission-critical network equipment and web servers, with carrier-neutral data lines. Located in the heart of Calgary's financial district. A dedicated and secure data centre in the core of Calgary's business centre. Amenities include 800 kVA of total critical power capacity. Over 12,000 feet of whitespace, including cabinets and cages. Redundant connectivity between multiple Canadian data centres

Sure, they can offer you a flexible, simple to use, high performance and a SUPER secure environment, but there's more!

24/7/365 CANADIAN SUPPORT

Our in-house support team is ready to help you every step of the way. You can reach us by phone, live chat or through a support ticket.

REBOOT/RESTART ACCESS

You control your server with the ability to restart and reboot your server at any time.
