

Tarps Now® Offers New Lines of Shade Tarps to Reduce Dangerous Exposure to Sunlight

New Lines of Shade Tarps Provides Humans and Animals Valuable Protection from to Sunlight

ST. JOSEPH, MICHIGAN, UNITED STATES, August 29, 2019 /EINPresswire.com/ -- Tarps Now® is pleased to announce new lines of outdoor [Shade Tarps](#) that reduces exposure to the effects of intense sunlight and other forms of ultraviolet radiation linked to skin cancers in both humans and animals.

To meet the need for protective coverings around homes, animal habitats and other outdoor structures, Tarps Now custom manufactures protective shade tarps and other [mesh coverings](#) in a variety of exposure ratings, weights, fabric grades and colors that are engineered to provide outstanding levels of protection.

Applications for these new lines of Shade Tarps extends to uses such as patios, decks, thresholds, gazebos, pools, picnic areas, barns, kennels and other outdoor recreational areas.

Conversely, many businesses are adopting the use of Sun Shade Tarps to protect businesses and their employees who work in areas where prolonged exposure to the elements exists such as in agricultural processing areas, warehousing docks, shipping and receiving areas, and many other outdoor areas where such applications reduces exposure to extreme sunlight exposure and potential heatstroke.

Tarps Now® recognizes that different habitats require different exposure levels, and thus offers a complete line up of Shade Tarps properly rated to meet individual needs.
