Consumer goods are products delivered to the end-user after production. Alternatively called final goods, they are produced on a massive scale to cater to consumers across all sectors. These goods are categorized into convenience, shopping, specialty, and unsought. Among these types, others exist such as durable, nondurable, and private. Durable goods have a lifespan limited to less than five years, while nondurable goods consist of consumables such as foods and beverages.

Convenience goods are goods which are available for purchase such as milk, bread, and others. Such goods are sold by retailers and wholesalers. Manufacturers of convenience goods form partnerships with mom and pop stores in cities and rural regions to ensure the continuous supply of their goods. Shopping goods are more expensive than convenience goods. They comprise of electronic goods, furniture, and other household items.

Specialty goods are highly expensive and considered a luxury item. They are designed for high net worth individuals and attract luxurious clientele due to the price tag attached to it. Common products in the category include jewelry and furs. On the other hand, unsought products are products which consumers are not aware of and generally does not think of buying. Insurance is a prime instance of unsought products.
