

XTI Aircraft Company to Exhibit at NBAA-BACE

Company's TriFan 600 model to be displayed at innovation exhibit

DENVER, CO, UNITED STATES, September 3, 2019 /EINPresswire.com/ -- [XTI Aircraft Company](https://www.einpresswire.com/xti-aircraft-company) (XTI) announced today it has been invited by the National Business Aircraft Association to exhibit its revolutionary [TriFan 600](https://www.einpresswire.com/trifan-600) vertical takeoff airplane as part of NBAA's Innovation Exhibit at its annual Business Aircraft Convention & Exhibit (BACE) in Las Vegas, October 22-24, 2019.

"We're delighted to be chosen by NBAA to exhibit and for this opportunity to showcase the TriFan 600," said Robert LaBelle, XTI's Chief Executive Officer. "The invitation is further validation that we have a very innovative aircraft. With its patented technology, vertical takeoff combined with long-range, the speed and comfort of a business aircraft, and a quiet, clean state-of-the-art hybrid-electric propulsion system, there's absolutely nothing comparable to the TriFan 600."

No Airport Required

“

"We're delighted to be chosen by NBAA to exhibit and for this opportunity to showcase the TriFan 600,"
Robert LaBelle, CEO, XTI Aircraft Co.

On August 5, 2019, XTI announced that due to anticipated success under its \$25 million Series B private placement, the company is likely to close its equity crowdfunding campaign on the [StartEngine](https://www.startengine.com) platform, <https://www.startengine.com/xti-aircraft>, before the end of 2019.

"We conducted a series of successful initial hover tests earlier this year, we announced a major collaboration with GE Aviation at Oshkosh in July of this year, and we've received 81 orders for the airplane so far," said LaBelle in that announcement. "That represents over a half billion dollars in gross revenues upon delivery."

The company also announced in August that it is currently planning to enter into arrangements with one or more "Alternative Trading Systems" or secondary markets for all XTI shareholders to have the opportunity to offer their shares for sale on a secondary market. This will create liquidity for investors and allow them to buy and sell shares of XTI, and possibly realize a return before the company gets acquired or goes public.

The shares won't become tradeable until XTI closes its crowdfunding campaign. XTI will announce the date if and when trading on a secondary trading platform becomes available. "XTI will continue to sell shares for \$1.50 on StartEngine until the offering closes," LaBelle added.

"Our offering on the StartEngine platform has provided and continues to provide a rare opportunity for unaccredited and accredited investors around the world to own a piece of the future of flight," LaBelle said. "The TriFan 600 vertical takeoff airplane will transform air travel

forever.”

The TriFan is a major breakthrough in aviation and air travel. The six-seat TriFan 600 will have the speed, range and comfort of a luxury business aircraft and the ability to take off and land vertically, like a helicopter. It will travel at 345 miles an hour, with a range of up to 1,200 miles. Using three ducted fans, the TriFan lifts off vertically. Its two wing fans then rotate forward for a seamless transition to cruise speed and its initial climb. It will reach 30,000 feet in just ten minutes and cruise to the destination as a highly efficient business aircraft.

“The market continues to recognize the value proposition of our unique and revolutionary airplane and its patented technology,” said LaBelle. “Vertical takeoff combined with long-range, the speed and comfort of a business aircraft, and our quieter and cleaner state-of-the-art hybrid-electric propulsion system.”

Ready to Fly

Shares in XTI may be purchased for \$1.50 a share at <https://www.startengine.com/xti-aircraft>, providing a unique opportunity for the general public to invest in an aerospace company with a game-changing product, a world-class leadership team, and what the company believes presents significant growth potential. Potential investors should read the Offering Circular before investing.

Simultaneously with the equity crowdfunding financing, accredited investors may participate in XTI's \$25 million Series B round. Accredited investors seeking more information should contact Mr. LaBelle at rlabelle@xtiaircraft.com (571) 216-1594.

ABOUT XTI AIRCRAFT COMPANY

XTI Aircraft Company is a privately owned aviation business based near Denver, founded in 2012. XTI is guided by a leadership team with decades of experience, a deep well of expertise, and success bringing new aircraft to market. XTI is founded on a culture of customer-focused problem solving to meet the evolving needs of modern travelers.
