“This is a special year for Jenks Volleyball, as the four varsity seniors leading the way have all attended Jenks Public Schools since the first grade or earlier,” commented Williams. “These four senior girls were also part of the first-ever Seventh Grade Jenks Volleyball Team.

The team's mission this year is to win a 6A State Championship title, and to strengthen the overall Lady Trojan volleyball program. Photographic Designs is thrilled to have been chosen to create the photographic materials to support them this year for their mission to take State. Be sure to come out and support the Jenks Volleyball Lady Trojans!

This is the second year in a row that Williams has photographed the entire Jenks volleyball team, as well as capturing individual portraits of the team members. However, it is the first time she has provided the Jenks High School Lady Trojan Volleyball team with additional services such as photographing and designing the team's Varsity Poster and its Senior Banners for the 2019-2020 Season.

Many teams have inquired about Williams's portraiture and design services, but this was not made available until now. The decision to expand her business by accepting sports portrait clientele is an exciting extension of Williams's well-established work producing heirloom-quality portraits of families, graduating high school seniors, newborns, and children at memorable moments in their lives.

Photographic Designs is a full-service photography, portraiture, and design studio offering exceptional customer service. Williams works hard to create close relationships with clients and collaborate with them, one-on-one, through each stage of the portrait experience.

Rachel Williams and the photography experts at Photographic Designs sincerely believe there is no better way to celebrate and document important stages of life than with high-quality portraits.
